INDUSTRY TRENDS & HOT DESIGNS

Light Woods, Natural Texture, Modern Simplicity.

Light tone wood grains with straight, clean patterns continue to lead the look in designer-driven custom cabinets. These finishes bring warmth, texture, and a modern natural feel to kitchens, closets, and built-ins.

Whether your project calls for deep tactile texture, convenient panel sizes, or the authentic look of natural wood, these trending surfaces deliver the performance fabricators need and the aesthetics designers want.

CLEAF – Textured European Panels

Highly realistic textures that add depth and sophistication to cabinets. Perfect for designers who want to add dimension and tactile interest to their projects.
