PRODUCT OVERVIEW

Physical Properties

Color:	Clear
Odor:	Strong Solvent
Density:	7.8 lbs/gallon
Solids Content:	0%
VOC :	<3% By Weight
VOC/liter of material:	25 g/L (Calculated)
VHAP Content:	None
Flashpoint:	-13.3°C/8.6°F (Closed Cup)
Composite part. pres:	<1 mm Hg @ 20" (Calculated)
Nonphotochemically Reactive	

General Description

- California-compliant, Ozone Transport Commission (OTC) Compliant cleaner that removes overspray and adhesive residue from fabricated parts and decorative surfaces by only dissolving the adhesive resins, and not the rubber.
- A blend of methyl acetate, p-Chlorobenzotrifluoride, and light hydrotreated distillate that is designed to dissolve and remove dried adhesive overspray and residue from fabricated parts and decorative surfaces.
- Professional or consumer use
- Does NOT require stirring before use
- No smearing or leftover adhesive film after drying

Applications to Avoid

- Do not use this product to clean equipment (spray guns, fluid lines, hoses, spray pots, rollers, brushes, etc)
- Do not use this product to thin Wilsonart Adhesives

Availability

- 13.2 oz. aerosol can, 1-gallon cans, 5-gallon pail and 55-gallon drum

Precautionary Information

Refer to product label and material safety data sheet for Health & Safety information before using this product.

Storage/Shelf Life

- Rotate stock and close container when not in use. Store off floor in a cool, well-ventilated area and away from exterior walls.
- Shelf life expires 2 years from manufacture date.

General Use Instructions

Use only after you have read and understand the warning, safety measures and first aid instructions printed on container. Apply and allow to dry only in a well-ventilated area. Use outdoors when possible. If indoors, open all windows and doors, and shut off all sources of ignition.

For Adhesive Residue Removal when using bulk

Dab rag in cleaner and lightly rub residue, increasing rubbing pressure as needed. Keep rag wet with cleaner for best results.

For Adhesive Residue Removal when using Aerosol

1. Hold can 6-7 inches above the surface and spray an even coat of cleaner over the surface to be cleaned.
2. Allow the cleaner to penetrate the adhesive residue and then wipe with rag.

Clean-Up/Disposal

Dispose of waste cleaner and cleaner soaked rags in accordance with regulations. Empty container may contain hazardous residue or flammable vapors which may explode upon ignition. Do not allow in any sewers, on the ground, or into any body of water. Contact local authorities for further guidance.
