

HANGING SYSTEM

CAMAR®
the art of innovation

VISIBLE BRACKET

CAMAR® Brackets are made with you in mind. They feature a precision horizontal and vertical adjustment to ensure the cabinets are in the precise position.

CAMAR® Specializes in quality, offering their components in ABS plastic and steel.

Cover caps are available in various colors to hide the metal hardware on our hangers or the adjustability holes in our concealed brackets.

All of our brackets work with the 875 hanging rails except our 807 bracket.

BRACKETS AND RAILS

CONCEALED BRACKET

The **CAMAR®** concealed hanging bracket offers a clean look for your cabinet.

Precision horizontal and vertical adjustments are standard on our concealed hangers to make sure you always have a level result.

CAMAR® concealed hanging brackets are made out of steel for maximum durability.

BASE CABINET BRACKET

Base cabinet hangers can help to modernize your living room, kitchen and bath.

The hangers and anti-drop wall plates are made out of steel and are both sturdy and easy to install.

*The load rating for the 807 Base Cabinet Hanger is 528 lbs. for each pair and is determined by the following factors:

- Dimension and material of the cabinet. (L 47" H 24" D 23")
 - Position of the hanger to the top panel.
 - The position and thickness of the back panel and depth of the groove.
 - Dynamic Stress. (Motion of drawers or doors under action and force).
- Please recommend a complete cabinet to be tested to industry testing standards.
